

K-LOVE is a blessing to my community. It is great to be able to get into my car, and to know that my kids are not going to hear negative things...we always know that our children (and we) are going to get a positive, uplifting message. There are numerous "regular" radio stations in our area, and none of them compares to K-LOVE.

This station is supported by people in my community -- and around the US - who believe that our children's lives are shaped (in part) by the music and commentary they are exposed to. K-LOVE is a station that I am proud to listen to. No shock jocks, no morning personalities who are constantly trying to one-up each other on how much they can get away with. If K-LOVE is not able to renew their license, we will be forced to listen to our CD collection...b/c we will not go back to listening to radio stations which expose our children to things in which we don't believe.

Please allow K-LOVE to renew their license.
